Polyester Filter Fabric 500

Weight	500gsm	
Thickness (mm)	2.0+/-0.2	
Air permeability (m ³ /m ² *min)	15	
Breaking strength (N/5*20cm)	warp	1000
	weft	1100
Elongation (%)	warp	35
	weft	40
Constant temperature ()	130	
Instant temperature ()	150	
Finishing treatment	Singed, calendering, PTFE membrane, anti static, heat setting	

COX Filter Cloth supply quality Polyester Filter Fabric also Polyester Filter Bag. These polyester products are manufactured from qualitative PES raw materials.

PET Filter Bags are offered in variety of designs, shapes and sizes. Our assortment of PET Filter Bags are available at market leading prices.

Polyester Filter Fabric have high efficiency of removing dust particle because high porosity(can reach 70%), good permeability, high effective dust-collecting, easy clear and long useful life

PES Filter Bag surface treatment can be divided into singeing, calendering, anti static, water proof & oil proof or teflon coated etc according to different working conditions.

Polyester Filter Bag have smooth surface after singeing, calendaring and heat setting finish treatment.

Needle punched polyester filter fabric provide a cost effective solution for many industrial operations. Polyester filter bags highly versatile and efficient in dust and fume collection.
